

Dear Students,

During the summer, you will need to start researching and writing your Internal Assessment. This is a complicated process and I will need to explain it to you and give you clear directions. The process will begin with the choice of a topic which I must approve. You will need to talk to me on the phone or in person over the summer if you have not already discussed your summer assignment with me. My home phone number is 689-3048. I will also be teaching summer school from 7:30-12:50 Monday-Thursday in room 1518 (my room) through July. **It is your responsibility to contact me.** If you know any of the other students taking this class, they might be able to help you with some details. The summer assignment will be due on the first day of school-no exceptions. Thank you for your hard work and I look forward to a good year together.

Rebecca Hardison
